## Testimonials From Our Valued Customers

- 1) Professional competence at a fair price. Explanations which you could understand... fairness, honesty and integrity...professional advice I can trust.
- 2) We have been long time customers of Absolute Automotive and take all of our cars there. They are very reliable, trustworthy, friendly. We would never go to another shop. They are the best.
- 3) I've been going to Absolute since Jud opened. He and his crew have always treated me with respect as if I was his only customer. I personally have referred a couple of customers to him and they also were very satisfied, as I have been. I will continue to go back.
- 4) We have been using Absolute Automotive since they opened on Hwy 99. When any repairs were needed we knew up front what to expect. They stand behind their work and go above and beyond the warranty. We trust our vehicles to them and their skilled workmanship.
